The A-frame cottages are beautiful, minimalistic and comfortable. The surroundings are extremely enchanting. They come with all amenities that you might need for a comfortable stay. Bed comes with heated sheets to keep you warm and comfortable on cold day. The staff is really friendly and helpful. The property manager, Jai Sing and their family are such wonderful people. They were constantly in touch with us right from the start and made our entire vacation really pleasant. There is a small kitchen from where you can order meals throughout the day. The food is homely and tasty. There's also many furry friends around. The wifi is a little weak if you're looking to work from here, but I was told that an upgrade is happening soon. Overall, I highly recommend this place.
